

Job Description

Role: Front End Developer

Salary: Competitive

Hours: Full time in main office

About Us:

It's not everyday that you find a company that exists for the love of technology. Our founder Sean Clark, a highly respected digital artist, began developing websites over 20 years ago when there were just a few hundred in existence. Today, there are over one billion.

Sean believed that everyone should be able to express themselves, their products and their passions online, and created Cuttlefish Multimedia to realise that ambition in the year 2000. Today the company has 11 employees and are looking to grow our team further in order to meet the exciting project demands of our varied client base.

We work across multiple sectors, but currently with particular coverage in the sport, digital art, education and council areas. We maintain our own CMS, but with our keen interest in new approaches we also like to explore different technologies for clients and experiment with AR, VR and IoT.

Responsibilities:

We are looking for a self motivated Front End Developer that is eager to develop their skills and join our friendly team. The key duties of the role include:

- Implement designs onto responsive websites and mobile apps
- Work closely with our designers and developers to create designs
- Test and maintain high quality responsive websites which work seamlessly across different platforms and browsers.
- Be part of project planning including client update meetings
- Understand the importance of page performance when implementing designs

Skills:

Essential:

- CSS
- HTML
- Javascript
- Responsive design and cross-browser compatibility.
- Strong time management ability.
- Effective communication skills.
- Desire to learn new skills and continually improve.

Bonus points for:

- Interface and UX design.
- SCSS
- jQuery, React
- Native mobile app development experience.
- Experience with Git.
- Experience with project management tools such as Trello.
- Experience with automated testing and quality-assurance.
- Knowledge of SEO, optimisation, and accessibility.

If possible please provide links to projects that highlight these skills. We may also provide a small task during the interview in which you will be asked to demonstrate your knowledge.

Perks:

- Competitive salary
- Holiday entitlement
- Regular team socials and gaming sessions
- Personal development opportunities
- Pension scheme

How to Apply:

Please email kim@cuttlefish.com with your CV, a covering letter about yourself and a portfolio of your work (if you have one).
